

USB 10 Gbps Hub with 3 USB Type-C™ and 4 USB Type-A Ports

Description

This solid USB hub by Delock with **metal housing** can be connected to a computer, laptop or mobile device via the USB Type-A or USB-C™ interface. It expands the computer by **seven USB ports**. Different USB devices such as USB flash memory, card reader, external enclosure etc. can be connected. A maximum **data transfer rate of up to 10 Gbps** can be reached.

Extensive connectivity

Due to the specially designed adapter, the Delock hub can be quickly and easily connected to the USB Type-A socket. Thus, it can be easily connected to new devices with USB Type-C™ female and older devices that only have a USB Type-A connector. The adapter is located directly on the cable and therefore it cannot be lost.

Item no. 64283

EAN: 4043619642830

Country of origin: China

Package: Retail Box

Inclined design

Due to the **specially adapted inclination**, the hub is ideal for the home or office desk. This makes it easy to plug in USB devices.

Secure stand

The rubber pads on the bottom prevent the hub from slipping when, e.g. a USB stick or USB cable is plugged in.

Small, stable and handy

Due to its **small dimensions and its sturdy housing**, this Delock hub is particularly suitable for travelling. It can simply be packed into the bag together with the laptop or tablet and used as needed.

Additional USB Type-C™ connector for power supply

If the power supply of the host device is insufficient, a separate power supply can be connected to the additional USB-C™ female. Charging of the host device is not possible.
