

TOSLINK cable 90° angled male to straight male, Ø 4 mm, 1 m, black

Description

This high-quality TOSLINK cable by Delock enables reliable transmission of digital audio signals between devices with an optical TOSLINK interface. It is ideal for connecting TVs, soundbars, AV receivers, hi-fi systems, Blu-ray players, and game consoles, ensuring a stable, interference-free audio connection.

With angled connector

A particular advantage of this cable is the 90° angled TOSLINK plug. This makes connection easier in tight installation spaces, for example when the optical port on the back of a device is hard to reach or there is limited space between the wall or furniture. This enables space-saving and gentle cable routing without unnecessarily kinking or straining the cable.

Item no. 90928

EAN: 4043619909285

Country of origin: China

Package: Zip poly bag

Lossless signal transmission

Optical signal transmission is achieved via fiber-optic technology. As a result, the cable is completely immune to electromagnetic interference and ensures consistently high transmission quality with clear, digital sound reproduction.

Technical details

- Connectors:
1 x TOSLINK male 90° angled
1 x TOSLINK male straight
- Cable diameter: ca. 4.0 mm
- With protection caps
- Cable jacket material: PE
- Colour: black
- Cable length: ca. 1 m

Package content

- TOSLINK cable
