

Fan Cable USB Type-A male to 2 x 4 pin fan connector male (2 pins connected) with switch 1 m

Description

This fan cable by Delock can be used to connect 2 fans to a USB Type-A port. This allows multiple fans to be operated simultaneously via a USB power source. The cable is perfect for additional or external cooling projects and offers a simple solution for operating case fans.

With on / off switch

The practical switch allows the fan to be switched on or off directly without having to disconnect the cable. This offers maximum flexibility in cooling and enables quick and easy control of PC or case fans.
